Notice Regarding the Sale of Shares and the Expected Recording of Non-Recurring Gain in Non-Consolidated Financial Results

Kyocera Corporation (the "Company") hereby announces that the Company decided today to sell a part of the common shares of KDDI Corporation ("KDDI") held by the Company. As a result of the sale, the Company expects to record a non-recurring gain in its non-consolidated financial statements for the year ending March 31, 2027 ("fiscal 2027").

1. Reason for the Sale of Shares

As part of capital strategies to enhance the Company's corporate value over the medium to long term, the Company has been reducing its shareholdings, including both cross-shareholdings and unilateral shareholdings. In February 2026, the Company adopted a new numerical reduction plan of a ratio of its shareholdings to net assets of less than 20% by the year ending March 31, 2031.

The Company has continued to sell its common shares of KDDI as part of its efforts to achieve the reduction plan and has decided to sell a part of its shares as described below.

Since establishing DDI Corporation (formerly Daini-Denden Planning Company), KDDI's predecessor, in 1984, the Company continues to hold the common shares of KDDI and maintains long-standing cooperative and business relationships with KDDI in business areas that contribute to enhancing the corporate value of both companies. Upon completion of the sale, the number of shares held by the Company will decrease. However, the Company believes that its amicable business relationship with KDDI will continue.

2. Outline of the Sale of Shares

(1) Shares to be sold	Common shares of KDDI Corporation
(2) Number of shares to be sold	38,968,400 (0.97% of the issued shares)
(3) Scheduled date of sale	November 20, 2026 (Trade date)

3. Impact on Financial Results

In the non-consolidated financial statements for fiscal 2027 of the Company, the Company expects to record a gain on sale of long-term investments in debt and equity securities as a non-recurring gain. However, in the consolidated financial statements, the gain on the sale is expected to be recorded as other comprehensive income since the Company applies International Financial Reporting Standards (IFRS) on a consolidated basis and classifies the long-term investment in equity securities as "equity financial assets measured at fair value through other comprehensive income". Therefore, there will be no impact on the Company's consolidated financial results for fiscal 2027.
